- D. suggests

UZB JAVOB: A

14. Fill the gap: How~~~~~ _____ adding a repeater then?

- A. about
- B. can
- C. are
- D. what

UZB JAVOB: A

15. Complete the sentence: OK, then you should check the cables and network_____ to make sure that they are compatible with your network.

- A. devices
- B. doing
- C. change

D. about

UZB JAVOB: A

16. Choose the right preposition: Is this software compatible_____ this computer?

A. with

B. between

C. on

D. from

UZB JAVOB: A

17. Choose the right preposition: A LAN connects devices _____a small area.

A. over

B. among

C. with

D. to

UZB JAVOB: A

18. Choose the right preposition: Is the computer connected _____the modem?

A. to

B. on

C.in

D. between

UZB JAVOB: A

20. Choose the right preposition: The LAN allows you to share information _____users.

A. between

B. over

C. from

D. on

UZB JAVOB: A

21. Choose the right preposition: Why don't you look _____the Internet?

- A. on
- B. in
- C. over
- D. with

UZH JAVOB: A

22. Find the sentence that is expressed the past simple tense?

- A. I left school in Cambridge in the UK at the age of 18 and went straight to the University of Bristol.
- B. The photographs show (clockwise, from top right) a modem, an expansion card, a router (with an antenna) and network server.
- C. This exercise contains all the network hardware vocabulary they are likely to suggest.
- D. Betty and Mark are scientists and they are working on some experiments in their lab.

UZH JAVOB: A

23. Find the key words of the past simple tense:

- A. ago, yesterday, last, previous
- B. usually, always, ago, before
- C. just, for, since, ago
- D. every, today, tomorrow

UZH JAVOB: A

24. Read the text and answer the question: 'I left school in Cambridge in the UK at the age of 18 and went straight to the University of Bristol to study computing in 2000. I graduated in 2004 and decided to travel around the world for a year. In 2006 I got a job back in Cambridge with the software company Arm. I stayed with Arm for two years and then went to work for Microsoft in Seattle in the USA. This is where I am now and I love it! When did he go to university?

- A. 2000
- B. 2004
- C. 2006
- D. There is no the right answer.

UZH JAVOB: A

25. Read the text and answer the question: 'I left school in Cambridge in the UK at the age of 18 and went straight to the University of Bristol to study computing in 2000. I graduated in 2004 and decided to travel around the world for a year. In 2006 I got a job back in Cambridge with the software company

Arm. I stayed with Arm for two years and then went to work for Microsoft in Seattle in the USA. This is where I am now and I love it! What did he do after university?

- A. He decided to travel around the world.
- B. He got a job back in Cambridge
- C. he went to work for Microsoft in Seattle in the USA.
- D. He left the school.

UZH JAVOB: A

26. Read the text and answer the question: 'I left school in Cambridge in the UK at the age of 18 and went straight to the University of Bristol to study computing in 2000. I graduated in 2004 and decided to travel around the world for a year. In 2006 I got a job back in Cambridge with the software company Arm. I stayed with Arm for two years and then went to work for Microsoft in Seattle in the USA. This is where I am now and I love it! When did he go to Seattle?

- A. 2008
- B. 2006
- C. 2000
- D. 2004

UZH JAVOB: A

27. Read the text and answer the question: 'I left school in Cambridge in the UK at the age of 18 and went straight to the University of Bristol to study computing in 2000. I graduated in 2004 and decided to travel around the world for a year. In 2006 I got a job back in Cambridge with the software company Arm. I stayed with Arm for two years and then went to work for Microsoft in Seattle in the USA. This is where I am now and I love it! When did he leave university?

- A. 2004

- C. 2006
- D. 2008

UZH JAVOB: A

28. Read the text and answer the question: Wireless networks have limited range. Network range depends on the type of 802.11 protocol, strength of the device transmitter and the architecture of the surrounding area. Some structures, such as walls and metal frames, reduce the range of a WLAN by 25%. However, users can extend the range of a WLAN. Repeaters forward the wireless signal to access points or routers and increase the range of a network. What can reduce network range?

- A. walls and metal frames
- B. WLAN and repeaters

C. transmitter

D. routers

UZB JAVOB: A

29. Read the text and answer the question: Wireless networks have limited range. Network range depends on the type of 802.11 protocol, strength of the device transmitter and the architecture of the surrounding area. Some structures, such as walls and metal frames, reduce the range of a WLAN by 25%. However, users can extend the range of a WLAN. Repeaters forward the wireless signal to access points or routers and increase the range of a network. What can improve network range?

A. repeaters

B. metal frames and walls

C. transmitter and agriculture

D. There is no the right answer

UZB JAVOB: A

30. Read the text and answer the question: Speed Bandwidth and latency are the measures of computer network speed, or data transfer rate. Bandwidth is the maximum throughput of data in bits per second. Some modems support 100 Gbit/s but speed depends on the hardware and software used. Latency is the delay that network creates during the transfer data. Users have no, or very little, control over bandwidth and latency. What two things affect speed?

A. bandwidth and latency

B. power of the software

C. the version of hardware

D. nothing

UZB JAVOB: A

30. Read the text and answer the question: Speed Bandwidth and latency are the measures of computer network speed, or data transfer rate. Bandwidth is the maximum throughput of data in bits per second. Some modems support 100 Gbit/s but speed depends on the hardware and software used. Latency is the delay that network creates during the transfer data. Users have no, or very little, control over bandwidth and latency. What is latency?

A. the delay that network creates during the transfer data

B. maximum throughput of data in bit per second

C. signal to access point

D. working speed of software

UZB JAVOB: A

31. Read the text and answer the question: Speed Bandwidth and latency are the measures of computer network speed, or data transfer rate. Bandwidth is the maximum throughput of data in bits per second. Some modems support 100 Gbit/s but speed depends on the hardware and software used. Latency is the delay that network creates during the transfer data. Users have no, or very little, control over bandwidth and latency. What are the measures of computer network speed?

- A. bandwidth and latency
- B. power of the software
- C. the version of hardware
- D. nothing

UZB JAVOB: A

32. Complete the sentence: Some modems support 100 Gbit/s but speed _____ the hardware and software used.

- A. depends on.
- B. depend on
- C. depend with
- D. depends to

UZB JAVOB: A

33. Complete the sentence: Repeaters _____ the wireless signal to access points or routers and _____ the range of a network.

- A. forward / increase
- B. forwards / increase
- C. increase / forwards
- D. forward / increasing

UZB JAVOB: A

34. Complete the sentence: However, user can _____ the range of a WLAN.

- A. extend
- B. extends
- C. extending
- D. extended

UZB JAVOB: A

35. Complete the sentence: Latency is the _____ that network creates during the transfer data.

- A. delay
- B. software
- C. hardware
- D. equipment

UZB JAVOB: A

36. Complete the sentence: Some modems _____ 100 Gbit/s but speed _____ the hardware and software used.

- A. support / depends on
- B. supports / depend on
- C. supporting / depend to
- D. support / depend to

UZB JAVOB: A

37. Complete the sentence: Some structures, such as walls and metal frames, _____ the range of a WLAN _____ 25%.

- A. reduce / by
- B. reduced / for
- C. reduces / by
- D. reducing / on

UZB JAVOB: A

38. Complete the sentence: I _____ with Arm for two years and then _____ to work for Microsoft in Seattle in the USA.

- A. stayed / went
- B. stay / go
- C. will stay / go
- D. stays / goes

UZB JAVOB: A

39. Complete the sentence: Repeater is a device, which _____ a signal and then _____ it at a higher power.

- A. receives/ resends

- B. receive / send
- C. resends / receives
- D. receiving / resend

UZB JAVOB: A

40. Complete the sentence: The function of modem is to _____ and _____ the data into a digital or an analog signal

- A. modulate / demodulate
- B. modulation / demodulation
- C. modulating/ demodulating
- D. modulated / demodulated

UZB JAVOB: A

41. Complete the sentence: The function of the repeater is to _____ the digital signal further on in the _____.

- A. send / network
- B. sends / equipment
- C. sending / network
- D. sent / equipment

UZB JAVOB: A

42. Complete the sentence: The word "recommendation" means a _____ about what someone should _____.

- A. suggestion / do
- B. suggesting / does
- C. suggest / do
- D. suggestion / doing

UZB JAVOB: A

43. Complete the sentence: Range is the distance of _____, so distance units represent network range.

- A. network coverage
- B. network speed
- C. network equipment

D. hardware version

UZH JAVOB: A

44. Complete the sentence: Most countries use metric but some use feet as units of_____.

A. measurement

B. weight

C. hardware

D. software

UZH JAVOB: A

45. Complete the sentence: Meters or feet usually _____the range of a _____.

A. describe / network

B. describes / network

C. used / measurement

D. description / speed

UZH JAVOB: A

46. Complete the sentences: A _____connects devices over a small area, for example your apartment and the shop. In addition, you should connect office _____such as the printer, scanner and fax machine, to your LAN because you can then share these devices between users.

A. LAN/Equipment

B. WAN/ Equipment

C. VPN/ Equipment

D. LAN/cable

UZH JAVOB: A

47. Complete the sentences: _____is a private network that uses a public network, usually the _____to connect remote sites or users together. Let's meet on Friday to discuss these recommendations.

A. VPN/Internet

B. LAN/Internet

C. WAN/Internet

D. Internet/WAN

UZH JAVOB: A

48. Complete the sentence: _____ is the maximum throughput of data in bits per second.

- A. bandwidth
- B. repeater
- C. range
- D. distance

UZB JAVOB: A

49. Complete the sentence: They _____ the computers yesterday.

- A. installed
- B. sell
- C. setting up
- D. share

UZB JAVOB: A

50. Complete the sentence: I _____ my computer off yesterday and today I _____ it on.

- A. switched / can't turn
- B. switch / couldn't turn
- C. switched / could
- D. switches / turn

UZB JAVOB: A

51. Complete the sentence: I _____ with the network download _____.

- A. have a problem / speed
- B. have a connection / range
- C. have an idea / issues
- D. has a problem / speed

UZB JAVOB: A

52. Which sentence expresses the suggestion?

- A. What about changing the modem?
- B. Could you help me?

- C. You mustn't stop here
- D. Can I hang out with you?

UZH JAVOB: A

53. Choose the right answer to complete the suggestion: _____ you check user recommendations on the internet as well?

- A. Why don't
- B. Can
- C. How about
- D. What about

UZH JAVOB: A

54. What is a range?

- A. the distance of network coverage
- B. a network connector
- C. an equipment for sending data
- D. the time for sending messages

UZH JAVOB: A

55. Choose the correct description of the following: 4Gbit/m

- A. four gigabits a/per minute
- B. four gigabits a/per second
- C. four bits a/per minute
- D. four minute a gigabits

UZH JAVOB: A

56. Choose the correct description of the following: 12kbit/s

- A. twelve kilobits a/per second
- B. twenty kilobits a/per second
- C. twelve kilobits a/per speed
- D. twenty kilobits a/per speed

UZH JAVOB: A

57. Choose the correct description of the following: 65 Mbit/s

- A. sixty-five megabits a/per second
- B. sixty-five megabyte a/per second
- C. sixteen-five megabits a/per speed
- D. sixty-five megabits a/per speed

UZB JAVOB: A

58. Choose the correct description of the following: 95 Mbit /s

- A. ninety-five megabits a/per second
- B. nineteen-five megabits a/per second
- C. ninety-five megabits a/per speed
- D. nineteen-five megabits a/per speed

UZB JAVOB: A

59. Choose the correct description of the following: 7,000 metres

- A. seven thousand metres
- B. seven hunderedmetres
- C. seven billion metres
- D. seventy thousand metres

UZB JAVOB: A

60. Choose the correct description of the following: 156 feet

- A. one hundred and fifty-six feet
- B. one thousand and fifty-six feet
- C. one hundred and fifteen-six feet
- D. one hundred and fifty-six foot

UZB JAVOB: A

61. Which answer indicates the speed:

- A. 77 kilobits per second
- B. 250 metres
- C. 40 feet

D. A and B

UZB JAVOB: A

62. Which answer indicates the range:

A. 40 feet

B. 77 kilobits per second

C. 4Gbit/m

D. A and B

UZB JAVOB: A

63. Which term refers “a system of things that are connected with each other”?

A. network

B. computer

C internet

D. website

UZB JAVOB: A

64. Which term refers “to go to one place from another or to several places”?

A. to travel

B. to operate

C. To communicate

D. all answers are correct

UZB JAVOB: A

65. Which term refers “a job or profession that you have been trained for, and which you do for a long period of your life”?

A. career

B. workshop

C. session

D. education

UZB JAVOB: A

66. Which term refers “the act of creating something”?

- A. creation
- B. participation
- C. training
- D. trainee

UZB JAVOB: A

67. What does “to lunch” mean?

- A. to make a new product available
- B. to go away from a place
- C. to have a break
- D. to get money

UZB JAVOB: A

68. Find the correct definition of the word “bandwidth”:

- A. the amount of information that can be carried through a computer connection at one time
- B. the measures of computer network range
- C. delay that network creates during the transfer data
- D. to make a new product available

UZB JAVOB: A

69. Which term refers “a unit for measuring length, equal to 12 inches or about 30 centimeters”?

- A. feet
- B. foot
- C. range
- D. measurement

UZB JAVOB: A

70. Find the measuring unit of describe the range of a network:

- A. feet and metres
- B. minutes and seconds
- C. bandwidth
- D. speed

UZH JAVOB: A

71. Complete the sentence: She _____ the network in December 2008.

- A. created
- B. creates
- C. create
- D. creating

UZH JAVOB: A

72. Complete the sentence: She even _____ to the office last weekends, but _____ the project.

- A. went / couldn't finish
- B. goes / couldn't finish
- C. went / can't finish
- D. went / could finish

UZH JAVOB: A

73. Which device sends the digital signal further on in the network?

- A. repeater
- B. hub
- C. modem
- D. switch

UZH JAVOB: A

74. What is the function of the wireless access point?

- A. to allow wireless devices to connect to the network
- B. to send the digital signal further on in the network
- C. to connect networks and sends packages of data between them
- D. A and B

UZH JAVOB: A

75. Which device connects the networks and sends packages of data between them?

- A. bridge

- B. hub
- C. modem
- D. wireless access point

UZB JAVOB: A

76. What is the function of router?

- A. to connect networks that use the same protocol
- B. to connect the networks and send packages of data between them
- C. to allow wireless devices to connect to the network
- D. all answers are correct

UZB JAVOB: A

77. Complete the sentence: The function of modem is to _____ and _____ the data into a digital or an analog signal

- A. modulate / demodulate
- B. receive / send
- C. copy / change
- D. print / scan

UZB JAVOB: A

78. Complete the sentence: _____ is an entrance to another network.

- A. gateway
- B. hub
- C. switch
- D. router

UZB JAVOB: A

79. Read the text and answer the question: Range is the distance of network coverage, so distance units represent network range. Most countries use metric but some use feet as units of measurement. Metres or feet usually describe the range of a network . Home networking routers support a range up to 150 feet or 46 metres indoors and 300 feet or 92 metres outdoors. What is a unit of measurement in most countries?

- A. metric and foot
- B. indoor and outdoor

C. rang and speet

D. A and B

UZB JAVOB: A

80. Read the text and answer the question: Range is the distance of network coverage, so distance units represent network range. Most countries use metric but some use feet as units of measurement. Metres or feet usually describe the range of a network . Home networking routers support a range up to 150 feet or 46 metres indoors and 300 feet or 92 metres outdoors. Which answer refers the coverage area of home networking routers:

A. up to 150 feet

B. over 150 feet

C. up to 92 feet

D there is no the right answer

UZB JAVOB: A

81. What is the meaning of the word "private"?

A. owned by a person or group and not available for others to use

B. owned by a person or group and available for others to use

C. a system of things that are connected with each other

D. a place where you buy things

UZB JAVOB: A

82. What is the meaning of the word "distance"?

A. he amount of space between two places or things

B. a system of things that are connected with each other

C. the things that you use for a particular activity

D. a place where you buy things

UZB JAVOB: A

Select the best definition to the word : " software "

A. any program designed to run on a computer

B. any device internal to the computer, such as a primary hard disk drive or motherboard

C. an external computer add-on, such as a printer or a scanner; also known as an 'accessory'

D. an electronic, digital device that stores and processes information

UZB JAVOB: A

Select the best definition to the word : " cable "

- A. wires that carry electricity or telephone signals
- B. a piece of equipment used to put electricity into a battery
- C. to change the way in which the files on a computer's hard drive are stored and organised, by putting related information together so that the computer works more effectively
- D. to describe when two things that are connected are separated

UZB JAVOB: A

Choose the correct answer: What is a charger?

- A. a piece of equipment used to put electricity into a battery
- B. wires that carry electricity or telephone signals
- C. the part of a computer where information is stored
- D. the part of a computer that where all the circuits of a computer are placed

UZB JAVOB: A

Select the best definition to the word:" defragment " (v)

- A. to change the way in which the files on a computer's hard drive are stored and organised, by putting related information together so that the computer works more effectively
- B. weighing not heavy
- C. doing something easily
- D. moving or happening slowly

UZB JAVOB: A

Select the best definition to the word: " disconnected " (adj)

- A. to describe when two things that are connected are separated
- B. doing something easily
- C. to change the way in which the files on a computer's hard drive are stored and organised, by putting related information together so that the computer works more effectively
- D. describes a cable connection that is in correctly and firmly

UZB JAVOB: A

Select the best definition to the word : “help desk ticket” (n)

- A. a ticket with a number that allows an IT help desk to track requests for help from users
- B. a disk drive that uses a laser to read and write data on disks
- C. a board where all the circuits of a computer are placed
- D. a piece of equipment in a computer that is used to store information

UZB JAVOB: A

Select the best definition to the word: “plugged” (adj)

- A. connected to the main supply of electricity, or to another piece of electrical equipment
- B. not connected to the main supply of electricity, or to another piece of electrical equipment
- C. to change something so that it is better or more modern
- D. describes a cable connection that is in correctly and firmly

UZB JAVOB: A

Select the best definition to the word: “switch off” (phr v)

- A. to make a machine or light stop working by moving a button
- B. to change something so that it is better or more modern
- C. describes a cable connection that is in correctly and firmly
- D. connected to the main supply of electricity, or to another piece of electrical equipment

UZB JAVOB: A

Select the best definition to the word : “tight” (adj)

- A. describes a cable connection that is in correctly and firmly
- B. to make a machine or light stop working by moving a button
- C. to change something so that it is better or more modern
- D. connected to the main supply of electricity, or to another piece of electrical equipment

UZB JAVOB: A

Select the best definition to the word: “type” (n)

- A. a group of things that are similar to each other in some way
- B. a ticket with a number that allows an IT help desk to track requests for help from users
- C. a board which contains alphabetical, numerical and function keys

D. all answers are correct

UZB JAVOB: A

Select the best definition to the word: “unplugged” (adj)

- A. not connected to the main supply of electricity, or to another piece of electrical equipment
- B. connected to the main supply of electricity, or to another piece of electrical equipment
- C. describes a cable connection that is in correctly and firmly
- D. to change something so that it is better or more modern

UZB JAVOB: A

Select the best definition to the word: “upgrade” (v)

- A. to change something so that it is better or more modern
- B. describes a cable connection that is in correctly and firmly
- C. connected to the main supply of electricity, or to another piece of electrical equipment
- D. to describe when two things that are connected are separated

UZB JAVOB: A

Select the best definition to the word: “anti-static wrist strap” (n)

- A. an device used by a person working on electronic equipment to prevent the build-up of static electricity on their body
- B. a set of tools used to drive bolts and screws into a hexagonal socket
- C. a tool for cutting wire or pulling nails out of wood
- D. a device that measures electronic properties and is used to find electrical problems in batteries, power supplies, and wiring systems

UZB JAVOB: A

Select the best definition to the word: “cause” (n)

- A. a person, event or thing that makes something happen
- B. a picture on a computer
- C. a set of related packages
- D. a particular quality or ability

UZB JAVOB: A

Select the best definition to the word: "diagnosis" (n)

- A. the process of discovering exactly what is wrong with something, by examining it closely
- B. easy to use, understand or operate
- C. doing something easily
- D. moving or happening slowly

UZB JAVOB: A

Select the best definition to the word: "fix" (v)

- A. to repair something
- B. text information on a computer
- C. to describe when two things that are connected are separated
- D. to change the way in which the files on a computer's hard drive are stored and organised, by putting related information together so that the computer works more effectively

UZB JAVOB: A

Select the best definition to the word: "hex key set" (n)

- A. a set of tools used to drive bolts and screws into a hexagonal socket
- B. a set of keys on a computer which you press to produce letters numbers, etc.
- C. the part of a computer where information is stored
- D. a set of related programs sold together for use on a computer

UZB JAVOB: A

Select the best definition to the word: "insertion / extraction clipper" (n)

- A. used for inserting and removing fibre connectors in tight spaces
- B. to enter, for example a website
- C. information stored on a computer
- D. to put something inside or into something else

UZB JAVOB: A

Select the best definition to the word: "multimeter" (n)

- A. a device that measures electronic properties and is used to find electrical problems in batteries, power supplies, and wiring systems
- B. a device that tests a computer system as it boots up and identifies errors in the system

- C. a tool that you use for turning screws
- D. a tool for cutting wire or pulling nails out of wood

UZB JAVOB: A

Select the best definition to the word: “pliers” (n pl)

- A. a tool for cutting wire or pulling nails out of wood
- B. a tool that you use for turning screws
- C. a small tool with three prongs used for repairing computers
- D. a device that tests a computer system as it boots up and identifies errors in the system

UZB JAVOB: A

Select the best definition to the word: “screen” (n)

- A. the part of a computer where the picture or information appears
- B. a set of related programs sold together for use on a computer
- C. a set of keys on a computer which you press to produce letters numbers, etc.
- D. programs that a computer uses to do different jobs

UZB JAVOB: A

Select the best definition to the word: “screwdriver” (n)

- A. a tool that you use for turning screws
- B. a device that tests a computer system as it boots up and identifies errors in the system
- C. a small tool with three prongs used for repairing computers
- D. a tool for cutting wire or pulling nails out of wood

UZB JAVOB: A

Select the best definition to the word: “system diagnostic card” (n)

- A. a device that tests a computer system as it boots up and identifies errors in the system
- B. a small tool consisting of two thin pieces of metal joined at one end; you use tweezers for picking up small things
- C. a document that is exactly the same as an earlier or original one
- D. a document stored on a computer

UZB JAVOB: A

Select the best definition to the word: “ three prong holder” (n)

- A. a small tool with three prongs used for repairing computers
- B. a tool used for cutting wires
- C. a tool used for cutting wire or removing insulation
- D. a tool that you use for turning screws

UZB JAVOB: A

Select the best definition to the word: “ tweezers” (n)

- A. a small tool consisting of two thin pieces of metal joined at one end; you use tweezers for picking up small things
- B. a tool that you use for turning screws
- C. a tool used for cutting wire or removing insulation
- D. a tool used for cutting wires

UZB JAVOB: A

Select the best definition to the word: “wire cutter” (n)

- A. a tool used for cutting wires
- B. a tool used for cutting wire or removing insulation
- C. a tool that you use for turning screws
- D. a small tool consisting of two thin pieces of metal joined at one end; you use tweezers for picking up small things

UZB JAVOB: A

Select the best definition to the word: “wire stripper” (n)

- A. a tool used for cutting wire or removing insulation
- B. a tool that you use for turning screws
- C. a tool used for cutting wires
- D. a small tool consisting of two thin pieces of metal joined at one end; you use tweezers for picking up small things

UZB JAVOB: A

Choose the appropriate answer: I ... him since he started working here.

- A. have never trusted
- B. has never trusted
- C. doesn't trust
- D. trust

UZB JAVOB: A

Choose the appropriate answer: Why haven't you brought me the letters for signature? ... them yet?

- A. haven't you typed
- B. didn't you type
- C. don't you type
- D. aren't you type

UZB JAVOB: A

Choose the appropriate answer: -Have you ever anything on an auction site like eBay?"

-No. Once I made a ... on something, but I was ... a few seconds before the auction closed."

- A. bought/bid/outbid
- B. buy/outbid/bid
- C. buy/bid/outbid
- D. will buy/outbid/bid

UZB JAVOB: A

Choose the appropriate answer: I need to charge up my mobile phone battery. ... my charger ?

- A. have you seen
- B. will you see
- C. you see
- D. had you seen

UZB JAVOB: A

Choose the appropriate answer: Wire strippers _____ insulation.

- A. are used for removing
- B. are used to removing
- C. is used for removing

D. are used for remove

UZB JAVOB: A

Choose the appropriate answer: Now the company can lose all the work files because of me. The IT technicians _____ the system yet. I am in a big trouble!

A. haven't repaired

B. aren't repairing

C. will not repair

D. repaired

UZB JAVOB: A

Choose the correct answer to complete the passage: For as long as there _____ computer hardware, there has also been computer software.

A. has been

B. have been

C. was

D. be

UZB JAVOB: A

Choose the appropriate answer: Cable testers _____ electrical connections in wired devices.

A. are used for checking

B. is used for checking

C. used to checking

D. used check

UZB JAVOB: A

Choose the appropriate uzb Javob: A multimeter electrical properties.

A. is used to measure

B. measuring

C. are to measure

D. is measure

UZB JAVOB: A

Choose the appropriate answer: I..... the computer.

- A. have unplugged
- B. have unplug
- C. unplugging
- D. was unplugged

UZB JAVOB: A

Choose the best answer: What is a multimeter used for?

- A. for measuring voltage, current and resistance
- B. for checking electrical connections
- C. for checking the system when the computer starts
- D. for checking computer hardware

UZB JAVOB: A

Choose the best answer: What is the cable tester used for?

- A. for checking electrical connections
- B. for checking computer hardware
- C. for checking the system when the computer starts
- D. for measuring voltage, current and resistance

UZB JAVOB: A

Choose the best answer: What is a system diagnostic card used for?

- A. for checking the system when the computer starts
- B. for measuring voltage, current and resistance
- C. for checking computer hardware
- D. for checking electrical connections

UZB JAVOB: A

Choose the best answer: What is the diagnostic software used for?

- A. for checking computer hardware
- B. for checking electrical connections

- C. for checking the system when the computer starts
- D. for measuring voltage, current and resistance

UZB JAVOB: A

Choose the best answer: What is a reversible ratchet driver used for?

- A. used for easy driving of screws and nuts
- B. used to drive bolts and screws into a hexagonal socket
- C. used for cutting wire or removing the insulation
- D. used to prevent electrostatic discharge

UZB JAVOB: A

Choose the best answer: What is a screwdriver used for?

- A. used for tightening and removing screws
- B. used to prevent electrostatic discharge
- C. used for cutting wire or removing the insulation
- D. used to drive bolts and screws into a hexagonal socket

UZB JAVOB: A

Choose the best answer: What is a hex key used for?

- A. used to drive bolts and screws into a hexagonal socket
- B. used for cutting wire or removing the insulation
- C. used for tightening and removing screws
- D. used to prevent electrostatic discharge

UZB JAVOB: A

Choose the best answer: What is a wire cutter/stripper used for?

- A. used for cutting wire or removing the insulation
- B. used to prevent electrostatic discharge
- C. used for tightening and removing screws
- D. used to drive bolts and screws into a hexagonal socket

UZB JAVOB: A

Choose the best answer: What is an insertion/extraction clipper used for?

- A. used for inserting and removing fibre connectors in tight spaces
- B. used to drive bolts and screws into a hexagonal socket
- C. used to prevent electrostatic discharge
- D. used for cutting wire or removing the insulation

UZH JAVOB: A

Choose the best answer: What are the tweezers used for?

- A. used to hold small objects
- B. used for cutting wire or removing the insulation
- C. used to prevent electrostatic discharge
- D. used to drive bolts and screws into a hexagonal socket

UZH JAVOB: A

Choose the best answer: What are the pliers used for?

- A. used to hold objects, cut or bend tough materials
- B. used to drive bolts and screws into a hexagonal socket
- C. used to prevent electrostatic discharge
- D. used to hold small objects

UZH JAVOB: A

Choose the best answer: What is an anti-static wrist strap used for?

- A. used to prevent electrostatic discharge
- B. used to hold small objects
- C. used to drive bolts and screws into a hexagonal socket
- D. used to hold objects, cut or bend tough materials

UZH JAVOB: A
